Art Unit: 3724

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-8, drawn to a hair trimmer having cutting blades, classified in class 30, subclass 194.
- II. Claim 9, drawn to a method of clipping hair, classified in class 83, subclass 13.
- III. Claims 10-12, drawn to a device having a power cord, switch and indicating light, classified in class 315, subclass 111.81.

2. The inventions are distinct, each from the other because;

the inventions of groups I and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, the invention of group I would operate fine without the indicating light of group III, and conversely, the invention of group III has separate utility such as ionizing hair without employing cutting blades. See MPEP § 806.05(d).

the inventions of group II and groups I and III are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the apparatus could be used for purposes other than cutting hair, such as trimming carpet or other fibrous fabrics.

Art Unit: 3724

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR, 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ken Peterson at 571-272-4512, on Monday-Thursday, 7AM-5PM.
